

Environmental Policy

Information from the factory in Billund

Modulex in Billund is an environmentally conscious organisation that acknowledges the impact our operations may have on the environment. Our goal is to become the green alternative as manufacturers in the signage industry and ensure continuous improvement of our environmental governance.

We intend to minimise our impact on the environment by

- Complying with Danish legal environmental requirements and regulations.
- Taking action to lower the environmental impact from our activities as much as possible and ensuring continuous improvement of our environmental performance and management system.
- Preventing pollution, reducing waste, and ensuring that wherever possible, measures are implemented to protect and preserve natural habitats and resources.
- Ensuring that we achieve an efficient level of energy consumption and lower our overall emissions following our emission reduction goals.
- Considering the impacts our operations may have on the local communities and address them accordingly.
- Taking action to reduce waste and ensure that as much of it is recycled or reused instead of landfilled.
- Ensuring that no new processes or products increase our emission levels or impacts unless justified by a greater cause or out of our control, e.g., health and safety of our colleagues or customer-selected product-mix.
- Consistently carrying out environmental assessments of materials so our customers can choose based on their environmental performance.
- Spreading awareness among our suppliers, customers, partners and employees about the importance of environmental action and our efforts to lower our adverse impacts.
- Ensuring effective, recurrent, and accountable monitoring and reporting about our environmental performance.
- Ensuring our overall environmental performance is considered a crucial factor in ensuring our growth.

All employees and sub-contractors are expected to cooperate and assist in implementing this policy whilst ensuring that their own work is carried out without risks to themselves, others, or the environment.

This policy will be reviewed and monitored regularly to ensure it reflects the concerns, actions, and progress of Modulex in Billund. This policy has been approved by the management at Modulex in Billund and should serve as a reference towards our commitment to continuous improvement within environmental governance.
