

# Modulex Billund Design Vinyl

Global Vision • Local Reach • One Company

Modulex Billund Design Vinyl is a flexible, self-adhesive vinyl that can be used to create stylish and durable surfaces in new interiors or for renovations. It is ideal for a wide range of applications, from small furniture pieces to full-scale hotel refurbishments, or for refreshing retail stores and office spaces.

This versatile vinyl can be applied to tabletops, displays, walls, floors, doors, cabinets, boat interiors, hotel rooms, exhibition spaces, ceilings, elevators, and more. It conforms to almost any surface, providing a high-quality finish that mimics the appearance and feel of genuine materials.

Using Modulex Billund Design Vinyl allows you to avoid the hassle of a full renovation, including the noise, dust, construction clutter, and downtime. Instead, you can achieve a durable, attractive result with minimal investment.

## Upcycling with Modulex Billund Design Vinyl

Upcycling involves taking an old item and upgrading it to extend its life, rather than discarding it.

Furniture and interiors can be upcycled with **Modulex Billund Design Vinyl**, giving them a fresh, durable look as an alternative to disposal or full renovation. This process not only saves time and reduces waste but also minimizes the environmental impact.

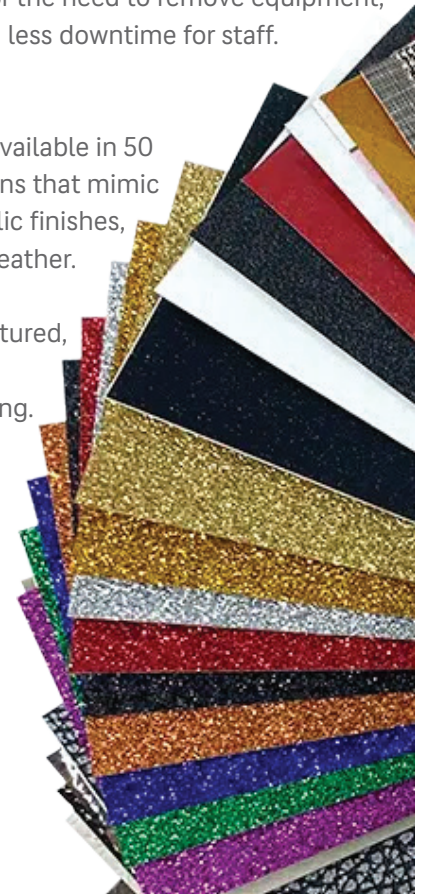

By using **Modulex Billund Design Vinyl**, businesses can renovate quickly with minimal disruption. For example, a hotel room renovated in the morning can be ready for occupancy by the afternoon, with minimal loss in revenue. Similarly, retail stores can be updated without dust, noise, or the need to remove equipment, and offices can be refreshed with less downtime for staff.

## Assortment

**Modulex Billund Design Vinyl** is available in 50 different designs, including options that mimic wood, marble, solid colors, metallic finishes, natural stone, fabric, glitter, and leather.

This high-quality product is structured, fire-retardant, thermoformable, hygienic, and aesthetically pleasing.

Whether you have small or large-scale needs, **Modulex Billund Design Vinyl** is available in continuous rolls to suit various project sizes.
